

Above Standard Cleaning For Real Estate Offices

Real Estate offices are an important first stop for a prospective buyer or seller. Marcelo's Maintenance will help you put your best foot forward by providing a clean, well-kept office for your clients to stop by.

Marcelo's Disinfect Thoroughly – Our disinfectants provide a broad kill spectrum, with minimum volume usage, creating a healthier environment.

Marcelo's Know Restrooms - We understand that a clean restroom is just as important as any other common area. We disinfect all counters, stall walls, fixtures, fittings, and push plates with our micro-fiber cloths and our hospital grade disinfectants. Bacteria cannot spread under this kind of cleaning schedule.

Marcelo's Know Carpets – Our multiple cleaning processes keep carpets fresh, clean and germ free.

Marcelo's Know Hard Floors - Again, the right kind of floor maintenance program can make all the difference in creating a safer environment. Our Commercial grade disinfectants make sure that the floors are as clean as can be.

Marcelo's Work Greener – Fewer chemicals mean a healthier environment for staff and clients alike.

Marcelo's Improve Air Quality – Our quiet and efficient vacuums remove dirt and dust which in turn creates a healthier breathing environment for everyone.
